

# ABORIGINAL DOTTED ART

A U S T R A L I A

Aboriginal culture dates back as far as between 60,000 to 80,000 years. This is when Aborigine's first settled in Australia. Aboriginal peoples have used dots in art and other forms of expression for a very long time. Dots can be seen in symbolic patterns carved on artefacts and ancient rock galleries.

Why don't you try to create your own dotted masterpiece? Here's what you'll need:

- **Paper**
- **Coloured Paints**
- **Cotton Ear Buds (for dotting)**

Don't forget to send us photos of your work! @pessn
